

20MM BUTYL AND PTFE/BUTYL STOPPERS

INTRODUCING THE NEW ILT 20MM BUTYL/PTFE STOPPER FOR LABORATORY USE.

ILT's unique manufacturing capabilities allows for inert PTFE film to be applied only to the plug part of the stopper. This ensures a secure fit onto the vial while providing a protective layer of PTFE between the sample and the stopper.

FEATURES:

20mm Dark Gray Butyl/PTFE stopper

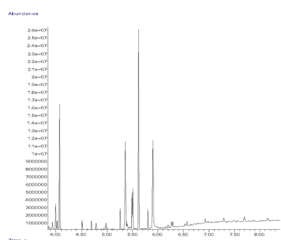

PTFE film covers the plug up to the flange edge

Secure fit onto 20mm crimp top vials

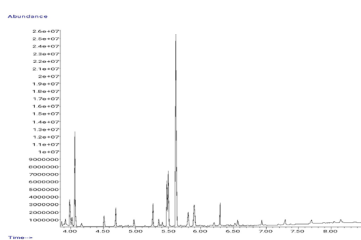

Ideal for laboratory uses like sample storage or chromatography applications

PTFE film provides increased chemical resistance

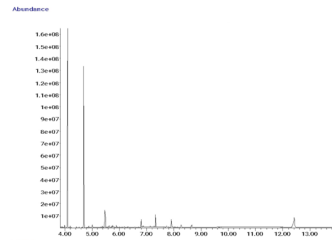

ILT FORMULATION BU59:

SUPPLIER A:

SUPPLIER B:
