

**CLEAN - CLEAR - BONDED.**  
**EXCELLENT FOR LIQUID**  
**CHROMATOGRAPHY MASS**  
**SPECTROMETRY.**

## FEATURES:

High grade clean and clear silicone	For use with LC, HPLC and LCMS test methods
Colorless PTFE for a clean and clear liner	Certified for LCMS use

ILT's LC Clean product not only meets today's requirements for LC, HPLC and LCMS but exceeds them. ILT's LC Clean caps are manufactured using a colorless silicone faced with a clear PTFE film. ILT's LC Clean caps are certified by liquid chromatography mass spectrometry for use across LC based test methods.

Part #	Description
009-13-8044	9mm blue screw cap, bonded clear PTFE/clear silicone
009-13-9109	9mm light blue screw cap, bonded clear PTFE/clear silicone
009-13-6551	9mm light blue screw cap, bonded clear PTFE/clear silicone, pre-slit
009-13-8046	9mm gray screw cap, bonded clear PTFE/clear silicone, pre-slit
011-03-5788	11mm silver crimp, press-fit clear PTFE/clear silicone
011-03-5714	11mm silver crimp, press-fit clear PTFE/clear silicone, pre-slit
011-03-5775	11mm silver crimp, press-fit clear PTFE/clear silicone, x-slit
011-03-7898	11mm clear snap cap, press-fit clear PTFE/clear silicone
011-03-5770	11mm clear snap cap, press-fit clear PTFE/clear silicone, pre-slit
