

**PARTIAL-SLIT
LINED CAPS**

ILT'S **PARTIAL Y-SLIT** LINED 9MM SCREW AND 11MM SNAP CAPS

FEATURES:

Partial slit for easy needle penetration

Silicone side of liner is slit while the PTFE layer is not

Available in 9mm screw caps and 11mm snap caps

Partial slit minimizes sample evaporation before injection

ILT's partial Y-slit liners for assembled 9mm screw caps and 11mm snap caps are slit along the silicone portion while the PTFE layer, facing the sample, remains intact. The partial slit liner ensures the ease of needle penetration while minimizing sample evaporation before injection.

Part #	Description
009-03-9810	9mm blue screw cap, press-fit red PTFE/white silicone, partial y-slit
009-03-9821	9mm clear screw cap, press-fit red PTFE/white silicone, partial y-slit
011-03-8655	11mm clear snap cap, press-fit blue PTFE/white silicone, partial y-slit
011-03-9755	11mm clear snap cap, press-fit red PTFE/white silicone, partial y-slit
011-03-9126	11mm blue snap cap, press-fit red PTFE/white silicone, partial y-slit
